## INTRODUCTION

The East Kazakhstan is one of the leading industrial and agrarian regions of the country with a huge industrial potential. Large enterprises of non-ferrous metallurgy, machine building, energy, food and light industries are concentrated here. Unique beryllium, tantalum production sites'-and the world's largest plant for manufacturing fuel for nuclear power plants are located in this region. Investments in fixed assets are increased every year. Over the past five years, their volume has amounted to about 2.0 trillion tenge, including 436 billion tenge in 2017. Investment activity of the region is reflected in the State Program of Industrial and Innovative Development, which includes 70 investment projects for 892 billion tenge.

There were established Regional Council for Investment Promotion, Investor Service Branch, and an investment portal is functioning. To improve electricity supply, it is planned to implement renewable energy projects that will meet the increasing demand for electricity and reserve capacity.

The East Kazakhstan is one of the most attractive regions for tourism, as its territory combines various types of natural resources, landscapes and historical and cultural sites, which allow developing almost all types of tourism.

Unique agricultural resources that successfully attract investors and investments are set here. The region develops public-private partnerships, attracting foreign investments through concession projects and the European Bank for Reconstruction and Development.

### INVESTMENT PREFERENCES

#### Customs duty exemption

Production equipment - goods intended for use in the technological process of the investment project.  
 Accessories - constituent parts that constitute together a structural integrity of the production equipment and included in the corresponding list of goods compiled by the Commission of the Customs Union.  
 Raw and other materials - any mineral, constituent part, piece and other items for the production process of manufacturing the finished goods if there is no production of this raw and materials on the territory of the Republic of Kazakhstan.  
 Customs duty exemption for import of production equipment with spare parts and accessories shall be applicable within the force period of an investment contract but five years maximum from the time of investment contract registration. The notification of the decision shall be sent by the authorized body on investments within five working days to the customs authority.

#### RECIPIENT:

- Under investment contract and investment priority contracts:  
 A legal entity of the Republic of Kazakhstan that handles an investment project under an investment contract and investment priority contract and imports plant and equipment, its accessories and spare parts, raw materials and/or other materials under the laws of the Customs Union and/or the laws of the Republic of Kazakhstan.
- Under the special investment contract:  
 SEZ members for a period of fifteen years, but not more than the validity period of special economic zones;  
 owners of free customs zones stock for a period not exceeding fifteen years from the date of registration of the special investment contract;  
 Legal entity, signatory of the agreement on industrial assembly of motor vehicles for a period not exceeding fifteen years from the date of registration of the special investment contract.  
 Legal entity - leasing company, engaged for importation of the production equipment to be shipped under a financial leasing contract for the Kazakhstani legal entity that handles an investment contract.

## EXEMPTION PERIOD

Import of production equipment with accessories and spare parts	Valid within the investment contract, but maximum five years from the time of investment contract registration
Import of spare parts of the production equipment	Applicable within five years and available subject to the amount of investments into fixed assets and when the project matches against the list of priority activities established by the Kazakhstan Government
Import of raw and other materials	5 years from time of commissioning of fixed assets under the work programme.
SEZ members	15 years, but no more than the validity period of special economic zones
Owners of free customs zones stock	Not more than 15 years from the date of registration of the special investment contract

**Legal entity, signatory of the agreement on industrial assembly of motor vehicles**  
 Not more than 15 years from the date of registration of the special investment contract

Customs duty exemption is granted for the duration of the investment contract, but not more than five years from the date of commissioning of fixed assets under the work programme.  
 The work programme is an annex to the investment contract that contains calendar schedule for implementation of the investment project prior to putting the production into operation, as well as the main production indicators of the project after putting the production into operation.  
 When the working program sets out commissioning of two or more fixed assets, the customs duty period for import of spare parts of the production equipment, raw and (or) other materials shall start from the date of commissioning of the first fixed asset as per the work programme.  
 (Points 2,3 Article 287 EC RK)

## STATE IN-KIND GRANT

### Content

Land plots, buildings, structures, machinery and equipment, computers, measuring and control devices and devices, vehicles (excluding motor vehicles), production and household equipment.  
 The evaluation of state in-kind grants is carried out at their market value in accordance with the procedure established by the legislation of the Republic of Kazakhstan.

### Amount

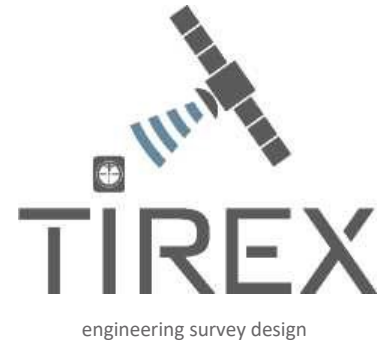

The value of a state in-kind grant is limited to 30% of investment amount in the fixed assets of a Kazakhstani legal entity.  
 The size (value) of the state in-kind grant should be proved with the documents that must be attached to the application for investment preferences.

### Prior approval

In accordance with clause 14 of the Investment preferences application approved by the Order No. 1133 of the Minister for Investment and Development of the Republic of Kazakhstan of November 30, 2015, a prior approval document of the local authority is required to receive a state in-kind grant.

# MANUFACTURING

TOO «TIREX»

I. General Information		
1	Project Name	Expansion of the production of continuous basalt fiber (glass fiber) manufacturing of composite reinforcement, output of fabric from glass fiber and glass fiber products
2	Sector / Code of General Classification of Types of Economic Activities	2314 Manufacture of glass fibres
3	Activity	Manufacture of glass fibres, production of composite fitting, output of fabric from glass fibres and fiberglass products
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Development of basalt continuous fiber production.
6	Project Implementation Place	Ust-Kamenogorsk city, K. Satpayev ave. 50/1 - 81
7	Project Implementation Period with Milestones	4-5 years
8	Required Investment Volume	2 bln. tenge
9	Project Documentation (business plan, feasibility study, FEM)	Business plan
II. Information on the Project Initiator		
10	Company Name	LLP TIREX
11	Brief Description of the Company	Design and survey work
12	Expectations from a Potential Investor	Availability of financial opportunities for expansion of production
13	Contact details	Tel: 8 777 987 43 33, e-mail: too.tirex@mail.ru

I. General Information		
1	Project Name	Organization of added -value wood processing manufacture on a "business from scratch" basis
2	Sector / Code of General Classification of Types of Economic Activities	Section (C) -Manufacturing industry / Section16 - Manufacture of wood and cork products, except furniture; manufacture of articles of straw and plaiting materials
3	Activity	Manufacture of plywood, plates and panels
4	Expansion, Modernization at Operating Business / New Business	<input checked="" type="checkbox"/> Expansion, modernization at operating business <input type="checkbox"/> Start-up
5	Project Objective	Organization of added-value wood processing manufacture (chipboard, laminated chipboard, MDF, OSB; plywood, veneer, wood -based biofuel, piles, pellets). Manufacture of products with increased added value laminated floors, wall panels, furniture facades.
6	Project Implementation Place	East Kazakhstan Region, Ust-Kamenogorsk city (regional center)
7	Project Implementation Period with Milestones	To be determined when making decisions and planning
8	Project Cost	At least 7 mln. US dollars
9	Project Documentation (business plan, feasibility study, FEM)	It is necessary to develop a business plan and other project documents
II. Information on the Project Initiator		
10	Company Name	Natural Resources and Environmental Control Administration of East Kazakhstan Region
11	Brief Description of the Company	State agency

I. General Information		
1	Project Name	Complete disposal of ash and slag wastes from coal heat power plants with processing into construction materials and products
2	Sector / Code of General Classification of Types of Economic Activities	Construction Industry. Code of Classification of
3	Activity	Manufacture of construction materials and products. Construction.
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Manufacture of construction materials and products using secondary production wastes by innovative technology to provide the regional construction market with heat-efficient wall products and materials
6	Project Implementation Place	East Kazakhstan Region, Ust-Kamenogorsk city, 30, Pogranichnaya str. 50/1, ash dump No.2, area 56 ha, burial capacity 5,000,000 tons.
7	Project Implementation Period with Milestones	The implementation period is 3 years. The first stage (1st year) - construction, installation of equipment, commissioning.
8	Required Investment Volume	200 mln. tenge
9	Project Documentation (business plan, feasibility study, FEM)	Feasibility study and business plan
II. Information on the Project Initiator		
10	Company Name	LLP ALINNTECH
11	Brief Description of the Company	LLP FLINTECH is the owner of the exclusive license for use of the invention under the patent of the Republic of Kazakhstan No. 27732 dated
12	Expectations from a Potential Investor	Investments for project implementation
13	Contact details	The RK, 070010, East Kazakhstan Region, Ust-Kamenogorsk city, Serikbayeva str. 37, office 102, tel. 87779916171, email: parzalidi@mail.ru Partsalidi Nikolay Georgiyevich

## LLP Semipalatinsk Woodworking Plant

I. General Information		
1	Project Name	Particle board production line
2	Sector / Code of General Classification of Types of Economic Activities	16210
3	Activity	Manufacture of veneer sheets, plywood, boards and panels
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Construction of a plant for the production of a sanded particle board with a capacity of 60 thous. m3 per year in Semey city
6	Project Implementation Place	Semey city, LLP SDOZ No.1 (Semipalatinsk Woodworking Plant)
7	Project Implementation Period with Milestones	Construction of the plant, acquisition, installation, commissioning and startup of equipment - 11 months
8	Required Investment Volume	668,952 thous.tg
9	Project Documentation (business plan, feasibility study, FEM)	enclosed
II. Information on the Project Initiator		
10	Company Name	LLP Semipalatinsk Woodworking Plant No.1
11	Brief Description of the Company	Production of plywood for export from 2012, laminating of plywood
12	Expectations from a Potential Investor	668 952 thous.tg
13	Contact details	7-727-367-15-67

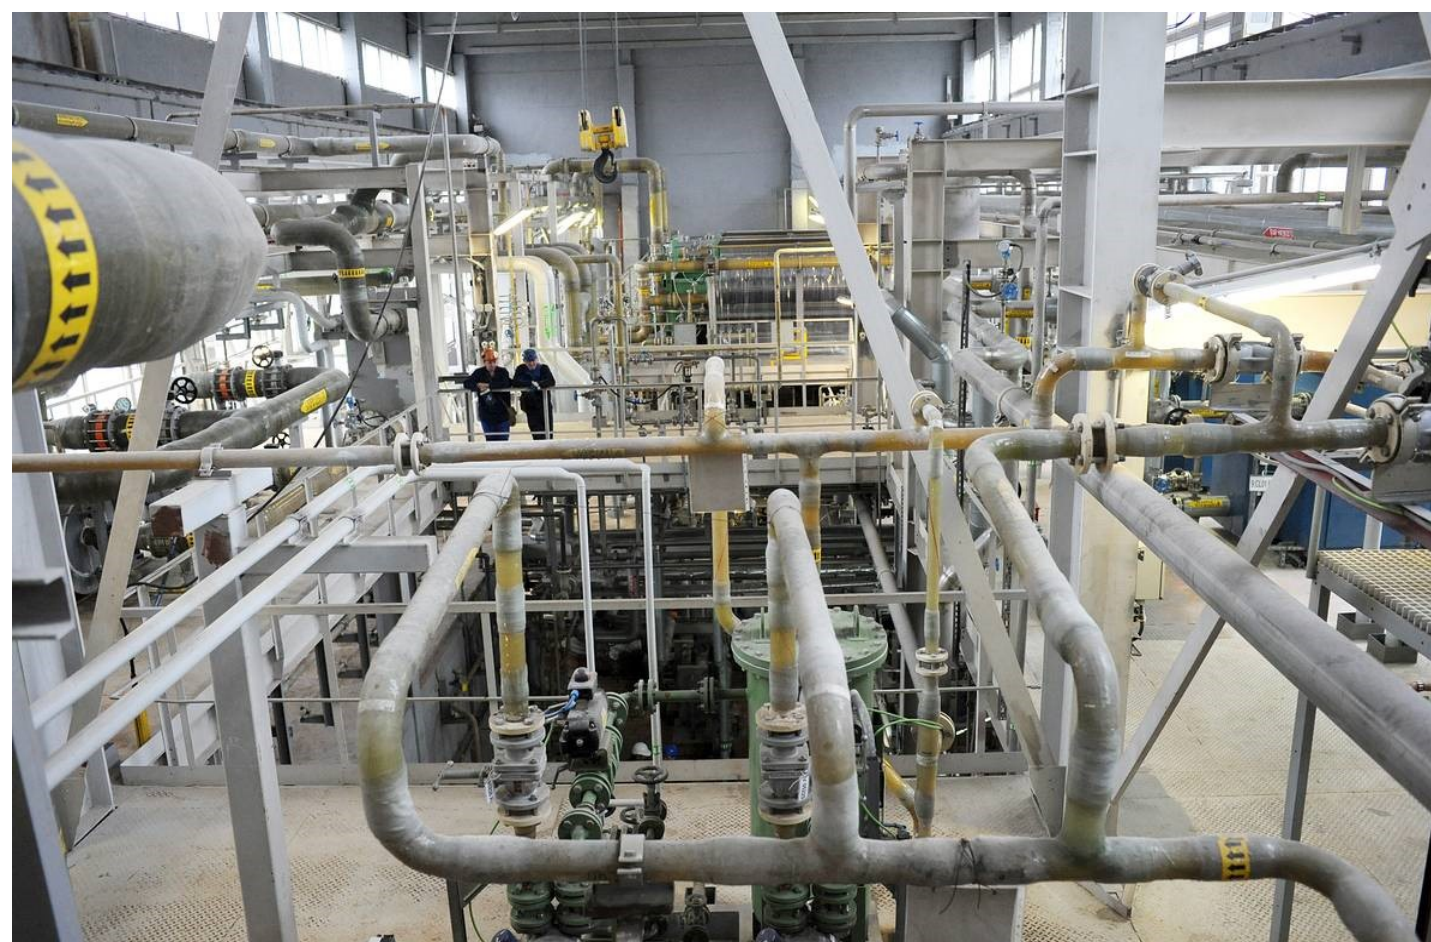

I. General Information		
1	Project Name	Acquisition of the workshop and LLP with all licenses for the extraction and processing of natural stone (gabbro, granite, marble), manufacture of products of any complexity made of stone.
2	Sector / Code of General Classification of Types of Economic Activities	Mining, processing / 23.7
3	Activity	Cuffing, shaping and finishing of stone
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Development of an enterprise for the extraction and processing of natural stone and improvement of the quality of its products, saturation of the market with products
6	Project Implementation Place	East Kazakhstan Region, Kurchatov city
7	Project Implementation Period with Milestones	Recently, LLP Degelen has acquired modern equipment, more advanced technologies have been introduced. When setting up production, a potential investor gets an opportunity to produce high quality products.
8	Required Investment Volume	3,790.0 mln. tenge
9	Project Documentation (business plan, feasibility study, FEM)	The company LLP Degelen company owns several quarries, st one processing plants, as well as a fleet of machinery for all types of stone extraction and processing.
II. Information on the Project Initiator		
10	Company Name	LLP DEGELEN
11	Brief Description of the Company	The main activity of LLP DEGELEN is extraction, processing, sale of natural stone. Natural stone was supplied throughout the territory of Kazakhstan and CIS countries, it had its representative office in the Russian Federation
12	Expectations from a Potential Investor	Purchase and production start-up
13	Contact details	Vladimir Kovalev, mobile: +7 701 761 26 76 e-mail: degelen@mail.ru

I. General Information		
1	Project Name	Modernization of calcium hydroxide production
2	Sector / Code of General Classification of Types of Economic Activities	Chemical/23521
3	Activity	MANUFACTURE OF LIME
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Modernize the production and create a modern complex for the production of calcium hydroxide using innovative technologies to meet the growing needs of industrial metallurgical and construction enterprises of Kazakhstan in a high - quality domestic product
6	Project Implementation Place	East Kazakhstan Region, Kurchatov town
7	Project Implementation Period with Milestones	2020 a) approval of feasibility study b) commencement of construction c) completion of construction d) pre-commissioning activities e) commissioning f) production and sale of first products
9	Required Investment Volume	2,880.0 mln. tenge
9	Project Documentation (business plan, feasibility study, FEM)	Design, working documentation and design and estimate documentation requires adaptation to the Kazakhstani technical conditions. Feasibility study and work program are available
II. Information on the Project Initiator		
10	Company Name	LLP KAZCHIMTECHSNAB
11	Brief Description of the Company	The company "KazChimTechSnab" has been operating on the market of Kazakhstan since 2006. In 2011, a plant for the production of hydrated lime was put into operation in Semey city.
12	Expectations from a Potential Investor	Investments in fixed assets for the project implementation
13	Contact details	The Republic of Kazakhstan, East Kazakhstan Region, Semey city, Glinka street, 73g Phone / fax +7 (7222) 56-04-83 e-mail: kazchimtechsnab@mail.ru

<b>I. General Information</b>		
1	Project Name	Construction of a steelmaking plant for the production of reinforcement rod
2	Sector / Code of General Classification of Types of Economic Activities	24100
3	Activity	production of reinforcement rod
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Provision of Kazakhstan with reinforcement rod
6	Project Implementation Place	East Kazakhstan Region, Glubokovskiy district, Glubokoye village
7	Project Implementation Period with Milestones	Preparation of design and estimate documentation October 2018 - February 2019, construction of the plant March 2019 - August 2019
8	Project Cost	7,300,000 US dollars (2 bln. 700.0 mln. tenge)
9	Required Investment Volume	4,160,000 US dollars (1 bln. 540.0 mln. tenge)
10	Project Documentation (business plan, feasibility study, FEM)	Business plan, brief feasibility study
<b>II. Information on the Project Initiator</b>		
11	Company Name	TOO LLP GoFen BBZ
12	Brief Description of the Company	Small enterprise
13	Expectations from a Potential Investor	4,160,000 US dollars (1 bln. 540.0 mln. tenge)
14	Contact details	Afanasiev Arseniy Arseniyevich +77764910000
<b>III. Project Description</b>		
15	Planned Types of Output Products/ Services Provided and Their Annual Capacity	Steel reinforcement rod with a diameter of 12 -18 mm, capacity 50,000 per year
16	Brief Description of Products / Services	Steel construction reinforcement rod
17	Project Rationale (market prerequisites, competitive advantages, etc.)	Deficit of steel reinforcement rod in Kazakhstan is 200,000 tons per year
18	Target Markets (countries, regions, if the Project is aimed at the domestic market)	Russia, Kazakhstan
19	Potential Suppliers	Local scrap metal companies

I. General Information		
1	Project Name	Construction of export-oriented production facilities for coal briefing and methanol production based on the existing Kenderlykskoye field
2	Sector / Code of General Classification of Types of Economic Activities	05103 - coal beneficiation, 1920 - briefing, 35210 - production of gaseous fuel from coal
4	Expansion, Modernization at Operating Business	Expansion, Modernization at Operating Business
5	Project Objective	Production of export-oriented products with high added value
6	Project Implementation Place	Zaysanskiy district, Kenderlykskoe field
7	Project Implementation Period with Milestones	Stage 1: September 2018 - September 2019 (production of briquettes) Stage 2: September 2018 - September 2021 (production of methanol)
8	Project Cost	Stage 1 - 1 725 million tenge (5 million US dollars) (production of briquettes) Stage 2 - KZT 24,150 million (USD 70 million) (production of methanol)
9	Required Investment Volume	25 875 mln. tenge (75 mln. US dollars)
10	Project Documentation (business plan, feasibility study, FEM)	Under development
II. Information on the Project Initiator		
11	Company Name	LLP ZDP Kvarts
12	Brief Description of the Company	The company has been working in the mining industry for more than 30 years, has the necessary number of PPE, assets, extensive work experience
13	Expectations from a Potential Investor	Strategic partnership
14	Contact details	Director Iosifidi Andrey Aleksandrovich, 87772974242

I. General Information		
1	Project Name	Construction of a logistics center on the basis of a shipbuilding plant
2	Sector / Code of General Classification of Types of Economic Activities	3011 Building of ships and floating structures
3	Activity	Shipbuilding, cargo transportation between China, Russia and Kazakhstan
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Establishment of a full-fledged river port on the basis of the operating enterprise and a logistics center for organizing one of the transportation options for the direction of the Silk Road along the transboundary Irtysh River
6	Project Implementation Place	The Republic of Kazakhstan, East Kazakhstan Region, Zyryanovskiy district, Pribrezhniy settlement
7	Project Implementation Period with Milestones	3-6 years. Revival of shipbuilding and navigation.
8	Project Cost	10,000,000 US dollars
9	Required Investment Volume	2,000,000 US dollars
10	Project Documentation (business plan, feasibility study, FEM)	Business plan
II. Information on the Project Initiator		
11	Company Name	LLP East Kazakhstan Shipbuilding and Ship Repair Plant
12	Brief Description of the Company	Shipbuilding and ship repair plant
13	Expectations from a Potential Investor	Purchase of the plant share, investments in the plant development
14	Contact details	email: <a href="mailto:vkssrz@mail.ru">vkssrz@mail.ru</a> , +7772884302
III. Project Description		
15	Planned Types of Output Products/ Services Provided and Their Annual Capacity	Completion of the barge on the basis of Project 559, construction of a new fleet starting from 2 units per year.
16	Brief Description of Products / Services	Shipbuilding, ship repair, production of industrial rubber articles.
17	Project Rationale (market prerequisites, competitive advantages, etc.)	Use of the plant as a base for the construction of a new fleet, establishment of own shipping company, participation in the Silk Road.
18	Target Markets (countries, regions, if the Project is aimed at the domestic market)	China, Kazakhstan, Russia

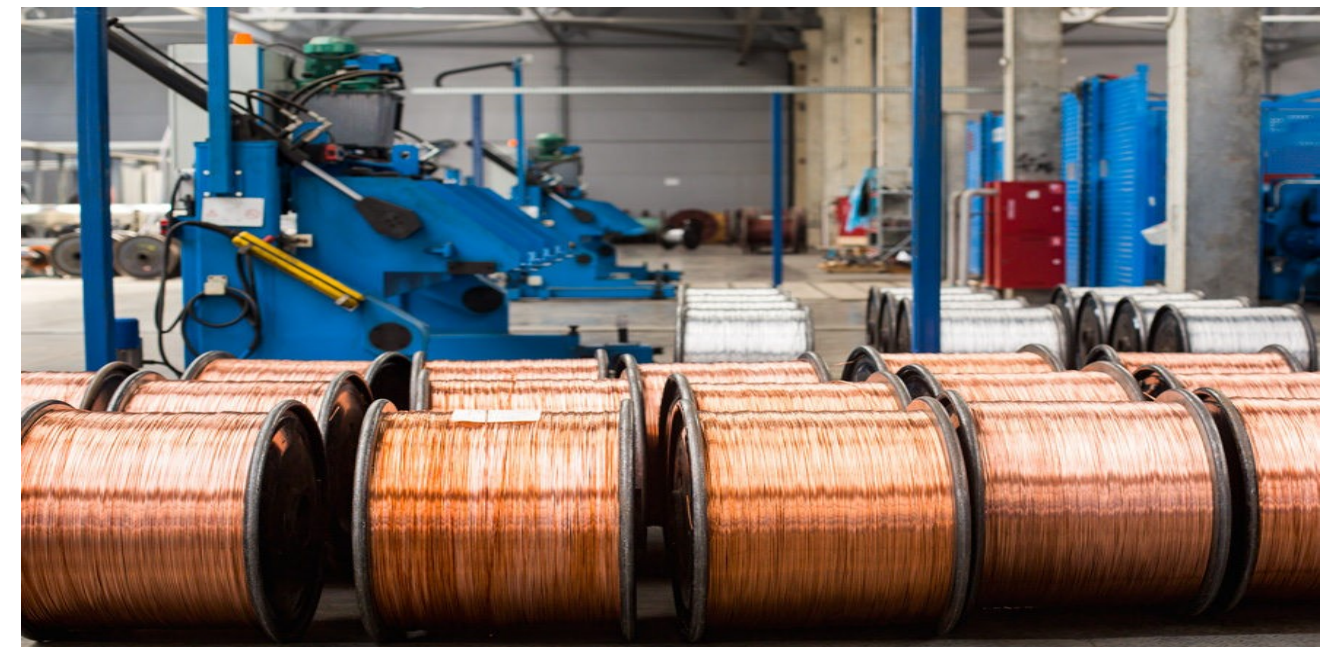

I. General Information		
1	Project Name	Modernization of production of dry construction mixtures
2	Sector / Code of General Classification of Types of Economic Activities	23.62
3	Activity	The main activity is the production of dry construction mixtures. Production of 17 types of construction materials: glue - 7 types, filler - 6 types
4	Expansion, Modernization at Operating Business / New Business	Production has been suspended.
5	Project Objective	Recovery of production of construction materials
6	Project Implementation Place	Zyryanovskiy district, Serebryansk town, Privokzalnaya str., 21
7	Required Investment Volume	160 mln.tenge
8	Project Documentation	available
II. Information on the Project Initiator		
9	Company Name	LLP Silver prom - Zabolotskiy Aleksey Olegovich
10	Brief Description of the Company	The main activity is the production of dry construction mixtures. 17 types of products are produced in the assortment. Production has been suspended.
11	Expectations from a Potential Investor	Purchase of a plant
12	Contact details	8 (7232) 203751, 87718538572

I. General Information		
1	Project Name	Construction of a hydrometallurgical plant for the production of cathode copper with a capacity of 5.0 thousand cathode copper per year
2	Sector / Code of General Classification of Types of Economic Activities	Metallurgy / Code 24.44.0
3	Activity	
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5	Project Objective	Production and sales of 5 thousand tons of cathode copper per year.
6	Project Implementation Place	East Kazakhstan Region, Urdzharskiy district
7	Project Implementation Period with Milestones	2018-2020
8	Required Investment Volume	14 bln. tenge
9	Project Documentation	Business plan is available, preliminary feasibility study of the project is developed
II. Information on the Project Initiator		
10	Company Name	LLP AK Minerals
11	Brief Description of the Company	
13	Expectations from a Potential Investor	Cathode copper production with a capacity of 5.0 thousand cathode copper per year, the creation of 350 permanent jobs

# JSC ASIA AUTO Kazakhstan

I. General Information		
1	Project Name	"Construction of a full -cycle automobile plant and a technological park for the production of automotive components in Ust-Kamenogorsk city, East Kazakhstan Region"
2	Sector / Code of General Classification of Types of Economic Activities	Machine-building industry, 2 9101 - Manufacture of automobiles and other motor vehicles
3	Activity	Enterprise is at the stage of investment project implementation; the main activity is not carried out
4	Expansion, Modernization at Operating Business / New Business	Expansion, Modernization at Operating Business
5		Creation of a modern automobile production that provides internal needs of the Kazakhstan market with the possibility of selling products for export to nearby countries.
6	Project Implementation Place	The Republic of Kazakhstan, East-Kazakhstan region, Ust-Kamenogorsk city
7	Project Implementation Period with Milestones	Planned project implementation period is 2019.
8	Project Cost	49,117 mln. tenge
9	Required Investment Volume	36,390 mln. tenge
II. Information on the Project Initiator		
10	Company Name	JSC ASIA AUTO Kazakhstan
11	Brief Description of the Company	Address of the enterprise: 070002, the Republic of Kazakhstan, Ust-Kamenogorsk city, Bazhova str. 101/1 Head of the enterprise, contact telephone: General Director Mandi yev Yerzhan Orazbekovich Date of enterprise registration: date of re - registration:
12	Expectations from a Potential Investor	Supporting the project with the necessary credit resources
